The Environmental & Water Resources Institute (EWRI) - Chicago Chapter is proud to present the Chicagoland Water Resources Permitting Seminar. This seminar will provide valuable information relating to current and future stormwater permitting/ordinance requirements for some of the most frequented agencies in the Chicagoland area. For 40 minutes, each agency will present and take questions on their most relevant permitting information .

SCHEDULED TO PRESENT

Illinois Department of Natural Resources
Office of Water Resources

US Army Corps
of Engineers

DuPage County
Stormwater Commission

Metropolitan Water
Reclamation District

City of Chicago
Department of Water Management

Who Should Attend?

Consulting engineers, municipal/government engineers, water resources planners, land development engineers, young engineers, and other professionals looking to learn about new requirements or get a refresher on existing requirements.

Company sponsorships are available. Contact Gary Gifford at ggifford@hwlochner.com to inquire
